

About Us

Riverdell Spiritual Centre is home for The Emissaries (SA) Inc, a not-for-profit organisation which is part of the global network Emissaries of Divine Light International.

We offer programs in practical spirituality for awakening inspired living. We know that within each of us is a radiant being, our inner Spirit, awaiting full expression. Our programs encourage that natural emergence.

Attunement

You are a spiritual being having a human experience. Attunement is a spiritual alignment practice that increases your experience of your inner Spirit – the invisible, animating life energy that flows through every being. Increasing balance, health, wellbeing and wholeness all flow naturally from this. For many people, the connection with spirit has been clouded in various ways over time, resulting in experiences of stress, conflict and dis-ease.

You are here to lead a fulfilling life in which purpose, meaning, order and beauty flow through your body, mind and heart. This awareness builds inner strength and confidence, and a deep knowing inside you that all is well. This is the inspired living Attunement helps awaken in you.

Attunement technique

Attunement is a non-touch technique in which a radiant energy current is directed to specific areas of the body. The primary focus is the endocrine glands. These glands connect spiritual and physical dimensions of the body. Attunement amplifies the flow of energy between these dimensions.

An attunement is a shared experience between the giver and receiver and usually takes 20-30 minutes. In this space of agreement, harmony and accord, the attunement current builds allowing the presence of inner spirit to increase and wholeness and wellbeing to be restored.

Comments about the Attunement experience:

"It was a very relaxing and joyful experience."

"I'm full of vibrant energies and have a sense of being home."

"I feel more grounded."

"I'm not so 'in my head' now."

"A deepening experience of knowing, feeling and experiencing a depth of love I did not know was there and I've noticed it never stops."
